

Capstone brainstorming ideas:

1. **Recipe sharing app-**

**Description:** Build a platform where users can share recipes, leave ratings, and comment on others' recipes. Have advanced search filters (by ingredient, cuisine, etc.).

2. **Event Management System-**

**Description:** An event management system where users can create events, RSVP to events, and leave comments. Admin users can manage events (CRUD operations).

3. **Task Manager with User Authentication -**

**Description:** A task management app where users can create an account, log in, and manage their tasks (CRUD operations: Create, Read, Update, Delete). Tasks can be tagged, assigned due dates, and marked as completed.

4. **UFO Sighting Tracker -**

**Description:** Create an app that pulls data from the NUFORC UFO sightings database and allows users to search, filter, and map reported sightings. Users can browse sightings by location, date, or shape of UFO. As a user you can submit your own sightings.
